

ACCESS REVIEWS FOR MICROSOFT 365

Microsoft 365 (Was Office 365):

YouAttest is a cloud-based tool designed to enable enterprises to conduct compliance and security access reviews at a fraction of the time and cost.

Azure AD is the leading cloud directory – utilized in all sectors: Financial, Government, Health Care, and International Commerce. Thus the identities fall under many U.S. and international compliance measures like: SOX, SOC2, HIPAA/HITRUST, ISO 27001, GLB, and the CMMC. Using the YouAttest console, the auditor, in a single console, can automate the access reviews process and allow reviewers to certify, revoke, or delegate the viewed entitlements in their Azure AD enterprise directory.

Integration With Microsoft 365:

YouAttest integrates with your existing Azure AD with a secure cloud-to-cloud connection. YouAttest utilizes a secure SAML connection to digitally connect and encrypt the connection between Azure AD IAM and YouAttest IGA. The result is a simple 3-minute integration with full IGA capabilities.

Advanced Features:

- App, Group, User Reviews
- Auto-Delegation
- Auto-Scheduling
- Multiple Reviewers
- Revocation Reports
- Siloed Applications Audited
- Time Stamped-Reports
- Export to PDF, XLS, or CSV
- Access Request/Access Approval
- Real-time Push of Changes - Remove Access/Keep Access

Benefits:

YouAttest is ideal for enterprises practicing continuous certification and security via access reviews.

YouAttest has shown to reduce the time needed by all personnel involved by up to 80%. No more spreadsheets, emails, snapshots – the purpose-driven GUI solves the compliance.
