

Get your IGA program started with YouAttest

Start today and your IGA program will be launched in 30 days!

The Ponemon Institute says 86% of enterprise IAM programs are incomplete - Identity Governance (IGA) is usually the missing piece.

YouAttest is ready to help your enterprise launch their IGA program. It's a simple 3-step process.

Identity Discovery

- Identity key system of record (authorization source)
- Obtain initial user account information
- Conducted by cyber and compliance experts

Analysis of User Account Information

- User access review by YouAttest (1 month license)
- Determination if review training is needed for Risk Manager

Deliverable

- Executive Summary Report
- Access Review Report
- Recommendations for future reviews

A modest one-time fee includes an actionable YouAttest license for quantified identity access reviews. Time to move to more secure Identity and Access Management!
